

## Liletta IUD

The Liletta IUD is carried in our office. A benefits investigation will be performed to determine eligibility and coverage information. Once the benefits have been determined our office will contact you to schedule an appointment for insertion. This process can take up to 1 week and our office will notify you once the device has been approved.

Some insurance companies will only allow us to order the Liletta through a specialty pharmacy. In this case we will send a prescription to Accredo Specialty Pharmacy where they will verify benefits and ship the device to the office. This process can take up to 6 weeks and we will notify you when the device arrives.

The price for Liletta is \$800.00. This is the price prior to insurance payment. In addition there is an insertion fee of \$200.00 and a removal fee of \$168.00. You may want to check with your insurance carrier to ensure that these services are covered. Occasionally a follow-up visit and/or ultrasound may be required after insertion. We will file these charges with your insurance.

The Liletta is generally inserted during your menstrual period unless your physician has instructed you differently. Please call our office when you start your period in order to schedule an appointment for insertion. Please ensure that your device is covered by insurance prior to scheduling this appointment.

Fees for the Liletta are subject to change.

If you have any questions or wish to order the Liletta IUD, please call our office at 434.237.9250.

Thank you,
